

PROP
LOCK

Operating Instructions

Before beginning to service the room:

1. Before using the PROP LOCK, be sure that the toggle (the rotating black triangle at the top of the device) is vertically oriented, or standing up-and-down – see figure A

Note: If the toggle is oriented horizontally – as seen from above in figure B – insert the key into the lock (applying a little inward pressure on the key if necessary) and turn the key one quarter turn to move the toggle into a vertical orientation, or standing up-and-down position

2. Hold the PROP LOCK by inserting two fingers under the face plate (the piece with the PROP LOCK logo) – see figure C

WARNING: TO AVOID INJURY DO NOT HOLD THE PROP LOCK BY THE SIDES, TOP, BOTTOM, REAR, HOOK, OR ROTATING TRIANGLE - ONLY HOLD THE PROP LOCK BY PLACING FINGERS UNDER THE FACE PLATE ON THE FRONT OF THE DEVICE

3. Open the guest room door completely – see figure D
4. While holding the door completely open, insert the PROP LOCK into the space between the edge of the door and the door frame by placing the hook at the rear of the PROP LOCK over the top of the door's middle hinge – see figure E

Note: Using the PROP LOCK on the top hinge may compromise its effectiveness

5. Allow the hook to settle completely down onto the pin with the PROP LOCK sitting entirely between the edge of the door and the door frame

Note: When properly positioned, the sides of the device should only be in contact with the hinge plates and not be in contact with the door or door frame – see figure F

6. Allow the room door to slowly close onto the PROP LOCK – see figure G

WARNING: TO AVOID INJURY BE CERTAIN THAT YOUR HANDS AND FINGERS ARE CLEAR OF THE DOOR'S EDGE, THE DOOR FRAME, AND THE SIDES OF THE PROP LOCK AT ALL TIMES

7. Turn the key one quarter rotation so that the toggle turns into a horizontal orientation – as seen from above in figure H
8. Remove the key and service the room normally

After servicing of the room is complete:

1. Reinsert the key, applying a little inward pressure if necessary, and turn the key one quarter turn so that the toggle turns into a vertical orientation
 2. Open the door slightly more than it already is to release pressure from the sides of the PROP LOCK and hold the door in that position
 3. Insert two fingers under the face plate, lift the device off of the hinge, and move the PROP LOCK away from the hinge, door, and door frame
- WARNING:** DO NOT PLACE HANDS, FINGERS, OR TOES INTO THE SPACE BETWEEN THE EDGE OF THE DOOR AND THE DOOR FRAME AT ANY TIME
4. Allow the door to close normally

Instrucciones de Uso

Antes de comenzar a atender el cuarto:

1. Antes de usar el PROP LOCK (el aparato), asegúrese de que el "toggle" (el triángulo giratorio negro en la parte superior del aparato) está en posición vertical – mire la figura A

Atención: Si el "toggle" está en posición horizontal – como se ve desde arriba en la figura B – inserte la llave en la chapa (aplique un poco de presión a la llave si es necesario) y gire la llave un cuarto de vuelta para mover el "toggle" hacia una posición vertical

2. Agarre el PROP LOCK insertando dos dedos debajo de la placa frontal (la pieza con el logo de PROP LOCK) – mire la figura C

ADVERTENCIA: PARA EVITAR LESIONES NO AGARRE EL APARATO DE LOS LADOS, LA PARTE DE ARRIBA, LA PARTE DE ABAJO, LA PARTE TRASERA, EL GANCHO, NI EL TRIÁNGULO GIRATORIO - SOLO AGARRE EL APARATO PONIENDO LOS DEDOS DEBAJO DE LA PLACA FRONTAL EN LA PARTE DE ADELANTE DEL APARATO

3. Abra la puerta del cuarto de huéspedes completamente – mire la figura D
4. Mientras sostiene la puerta abierta completamente, inserte el aparato en el espacio entre el borde del ala y el marco de la puerta poniendo el gancho de la parte trasera del aparato sobre la parte superior de la bisagra de la mitad de la puerta – mire la figura E

Atención: Usar el aparato sobre la bisagra más alta puede afectar su eficacia

5. Permita al gancho ajustarse completamente sobre el pin con el PROP LOCK ajustado totalmente entre el borde del ala y el marco de la puerta

Atención: Cuando está colocado correctamente, los lados del aparato deben tocar solo las alas de la bisagra y no deben tocar el ala ni el marco de la puerta – mire la figura F

6. Deje el ala del cuarto cerrar despacio sobre el aparato – mire figura G

ADVERTENCIA: PARA EVITAR LESIONES ESTÉ SEGURO DE QUE SUS MANOS Y DEDOS ESTAN LEJOS DEL BORDE DEL ALA, EL MARCO DE LA PUERTA, Y LOS LADOS DEL APARATO EN TODO MOMENTO

7. Gire la llave un cuarto de vuelta para que el "toggle" gire hacia una posición horizontal – como se ve desde arriba en la figura H
8. Saque la llave y atienda el cuarto normalmente

Después de que el servicio del cuarto está terminado:

1. Vuelva a insertar la llave, aplíquelo un poco de presión si es necesario, y gire la llave un cuarto de vuelta para que el "toggle" gire hacia una posición vertical
2. Abra el ala un poco más de lo que ya está para liberar la presión de los lados del aparato y mantenga el ala en esta posición

3. Inserte dos dedos debajo de la placa frontal, levante el aparato de la bisagra, y retírelo de la bisagra, el ala, y el marco de la puerta

ADVERTENCIA: NO PONGA LAS MANOS, LOS DEDOS DE LA MANO, NI LOS DEDOS DEL PIE EN EL ESPACIO ENTRE EL BORDE DEL ALA Y EL MARCO DE LA PUERTA EN NINGÚN MOMENTO

4. Deje el ala cerrar normalmente
